

RUMFORD COMMUNITY FOREST

**OPEN TO THE PUBLIC WITH
THE GRAND OPENING SET
FOR SEPTEMBER 20TH
LOCATED AT 161 ISTHMUS
RD, RUMFORD, ME
TRAIL MAPS WILL BE
AVAILABLE**

Today Hope Association staff and people supported did a trail walk on a new trail and are excited to share:

The landowner of the Rumford community forest made by Inland Woods and Trust Inc. talked to us about the new and upcoming trails. This complete 1/4-mile trail is flat and accessible to all. The workers were there building a picnic table with a wheelchair accessible end. So cool!

This trail is the easy trail along the river as they are working on putting moderate and harder trails, as well as biking trails. The will be pet friendly as well. The trails are handicap accessible, and the picnic tables being built are also handicap accessible. Benches will be along the trails in the future as this is still a work in progress. Walking trails, like these, are easy for wheelchairs as they are level and clean.
